With all the changes and uncertainties brought on by COVID-19, we know students and teachers are anxious to be back fully in person for the **2021-2022** school year. And, due to the affect the pandemic had on our economy, many families will need help to provide their children with the supplies they need for a successful school year.

Please consider donating school supply items, purchasing from the Amazon Wishlist or making a monetary donation to United Way’s Stuff the Bus Program within your company, civic organization, church or neighborhood.

All donations will stay local in the community they are received for. When making a monetary donation or purchasing from the Amazon wish list, please note which county you are donating to.
